

VW Caddy Maxi Life 1.4 TSi PetrolÂ Wheelchair Accessible Veh

Content

Volkswagen Caddy Maxi Life WAV Overview

This 2018 (68) Volkswagen Caddy Maxi Life 1.4 TSi Petrol Wheelchair Accessible Vehicle (WAV) is a rare petrol example, offering a smooth, quiet driving experience.

A key advantage of this vehicle is its fold-flat rear ramp design, which allows the rear area to be used as a normal boot space when not carrying a wheelchair passenger. This makes it an ideal choice for buyers who need flexibility using the vehicle as a wheelchair accessible car when required, but also as a practical everyday vehicle.

With very few petrol WAVs available on the market, this is an excellent option for those wanting comfort, versatility, and ease of use in one vehicle.

Available from Michael Harraway Cars in Weston-super-Mare, we supply customers across Bristol, Bath, Somerset, Devon, and the wider South West, with local delivery available.

Key Vehicle Information

Mileage: 16,147 miles.

Seating: 5 Seats plus Wheelchair or mobility scooter

Fuel: Petrol

Ramp length: 130 cm (up to winch)

Entry height (doorway): 142 cm

Always measure your wheelchair or mobility scooter before purchase.

Practical Benefits of This Wheelchair Accessible Vehicle

The Volkswagen Caddy Maxi Life is one of the UK's most popular WAVs, offering an excellent balance of size, comfort, and everyday usability.

This particular example stands out thanks to its fold-flat ramp system, allowing the vehicle to quickly switch between a fully functional wheelchair accessible vehicle and a standard car with a flat, practical boot space.

This added flexibility is ideal for buyers who don't always carry a wheelchair, giving you the freedom to use the vehicle for everyday tasks without compromise.

Combined with the smooth and refined petrol engine, it is especially well suited to short journeys, local driving, and day-to-day use.

Who This Vehicle Is Ideal For

This WAV is particularly well suited to:

Families needing a flexible wheelchair accessible vehicle

Buyers specifically looking for a rare petrol WAV

Customers who only occasionally carry a wheelchair

Carers wanting an easy-to-use, practical setup

Multi-Function Flat Bottom Steering Wheel.

Frequently Asked Questions (FAQ)

1. What is a fold-flat ramp and how does it work?

The rear ramp folds flat into the floor when not in use, creating a level boot space. This allows the vehicle to be used like a normal car when you're not carrying a wheelchair passenger.

2. Can this WAV be used as an everyday car?

Yes-this is one of its biggest advantages. With the ramp folded away, you have a practical, flat load area, making it ideal for shopping, luggage, or day-to-day use.

3. Are petrol wheelchair accessible vehicles hard to find?

Yes, most WAVs are diesel. Petrol models like this Volkswagen Caddy are much rarer and are particularly popular for people who do short journeys.

4. Is the ramp easy to operate for one person?

Yes, the lightweight ramp is designed for simple operation, allowing a single person or carer to deploy and store it quickly.

5. What size wheelchair or mobility scooter will fit?

This vehicle is suitable for most standard wheelchairs and many mobility scooters. The key access dimensions are approximately 75 cm wide, 130cm long, and 142 cm entry height, which provides good space for a wide range of users.
