

Rifter LWB 1.5HDi Allure Wheelchair Accessible Vehicle (WAV)

Content

This 2021 (21) Peugeot Rifter Long Wheelbase 1.5 BlueHDi Allure Wheelchair Accessible Vehicle (WAV) is an exceptionally low mileage, one-owner example, previously supplied through the Motability scheme and professionally converted by Allied Vehicles.

Offering a rare 4-seat plus wheelchair or mobility scooter configuration, this LWB model provides an excellent balance of passenger space and accessibility. Unlike many long wheelbase WAVs that retain 5 seats but compromise wheelchair room, this layout prioritises usable internal space, making it ideal for larger wheelchairs and mobility scooters.

With just 5,924 miles, full service history, and a high specification Allure trim, this is a standout example.

Available from Michael Harraway Cars, based in Weston-super-Mare, supplying customers across Bristol, Bath, Devon, and the wider South West.

Key Vehicle Information

â€¢ Mileage: 5,924 milesâ€¢ Seating: 4 seats plus wheelchair user or mobility scooterâ€¢ Ownership: 1 owner (ex-Motability)â€¢ Road Tax: £200 per yearâ€¢ Service History: Fullâ€¢ Euro Standard: Euro 6â€¢ Transmission: 6-speed manual

Wheelchair Accessibility Features

â€¢ Rare 4-seat plus wheelchair configurationâ€¢ Long Wheelbase (LWB) model - increased internal spaceâ€¢ Fold-flat rear access ramp (stores flat when not in use)â€¢ Lowered rear floor for improved headroomâ€¢ Extended wheelchair area - ideal for larger scootersâ€¢ 4-point wheelchair restraint system (front restraints)â€¢ Professionally converted by Allied Vehicles

Measurements for Wheelchair / Mobility Scooter Area

Suitable for most wheelchairs and many larger mobility scooters.

Key internal access measurements:â€¢ Wheelchair area length: 160 cmâ€¢ Ramp width: 82 cmâ€¢ Entry height: 140 cmâ€¢ Width between rear seats: 60 cm

We always recommend measuring your wheelchair or mobility scooter before purchase to ensure suitability.

Practical Benefits

The Peugeot Rifter is one of the most modern WAV platforms available, offering a comfortable drive, excellent fuel economy, and strong everyday usability.

This particular example stands out due to its rare 4-seat layout in a long wheelbase vehicle. Many LWB WAVs are configured with 5 seats, which often reduces usable wheelchair space. This version instead provides room for larger or heavier mobility scooters, without sacrificing passenger capacity. The fold-flat ramp design is especially practical, allowing it to sit neatly inside the vehicle when not in use improving rear visibility and making every day driving more convenient compared to fixed or upright ramps.

Who This Vehicle Is Ideal For

This vehicle is particularly well suited to:

Families needing 4 seats plus wheelchair flexibility

Buyers with larger mobility scooters

Carers requiring an easy-to-use, practical WAV

Customers specifically looking for a Peugeot Rifter LWB WAV

Anyone wanting a modern, low mileage WAV with excellent specification

Other Vehicle Features and Specification

3,902 miles - 13th March 2024 - Allied Vehicles

4,882 miles - 11th March 2025 - Allied Vehicles

5,850 miles - 5th March 2026 - Allied Vehicles

Frequently Asked Questions (FAQ)

Is this a rare layout for a Peugeot Rifter WAV? Yes the 4 seats plus wheelchair configuration is much less common, especially in a long wheelbase model. Most LWB Rifiers are 5-seat conversions, which can limit wheelchair space.

Can it take a large mobility scooter? Yes, this is one of its key strengths. The LWB design combined with the 4-seat layout provides more usable space, making it suitable for many larger mobility scooters. We always recommend checking measurements before purchase.

What is the benefit of a fold-flat ramp? A fold-flat ramp stores neatly inside the vehicle when not in use, improving rear visibility and making everyday driving easier compared to upright ramps. It also keeps the rear area more practical when the wheelchair space isn't needed.

Why choose a 4-seat LWB over a 5-seat version? A 5-seat LWB often reduces the available wheelchair area. This 4-seat configuration gives you more practical space where it matters, especially for larger chairs or scooters.

How easy is it to load a wheelchair or scooter? Very straightforward. The ramp is lightweight and easy to operate, and the flat, extended floor area makes positioning simple for both users and carers.

What are the benefits of an Allied Vehicles conversion? Allied Vehicles are one of the UK's leading WAV converters, known for high build quality, durability, and well-thought-out designs focused on safety and ease of use.

Is this vehicle suitable for everyday driving? Yes, the Peugeot Rifter drives very much like a standard car. It's comfortable, economical, and easy to use both in town and on longer journeys.

What is the annual road tax? The road tax is £200 per year.

Why Buy from Michael Harraway Cars?
