

# Volkswagen Caddy Maxi 2.0 TDI DSG Automatic Wheelchair Accessible

---

## Content

### Volkswagen Caddy Maxi WAV Overview

This 2020 (20) Volkswagen Caddy Maxi 2.0 TDI DSG Automatic Wheelchair Accessible Vehicle offers a smooth, refined and effortless driving experience thanks to its automatic gearbox and proven 2.0 TDI engine.

It benefits from a practical and highly flexible WAV conversion, including a fold-flat rear ramp system which allows the rear area to be quickly converted back into a completely flat boot space when not carrying a wheelchair passenger. This makes it ideal for both wheelchair transport and everyday family or commercial use.

Finished in metallic grey, this is a clean, modern and highly usable WAV with excellent service history and strong usability credentials.

Available from Michael Harraway Cars in Weston-super-Mare, we supply customers across Bristol, Bath, Somerset, Devon and the wider South West, with delivery available.

### Key Vehicle Information

Mileage: 34,728 miles

Engine: 2.0 TDI Diesel

Suitable for most standard wheelchairs and many mobility scooters.

Ramp width: 75 cm

Ramp length: 130 cm (to winch)

Entry height (doorway): 142 cm

Always measure your wheelchair or mobility scooter before purchase.

## Practical Benefits

The Volkswagen Caddy Maxi remains one of the most popular WAV platforms in the UK due to its excellent balance of size, comfort and usability.

This DSG automatic diesel version adds an extra level of convenience, especially for carers and family users who want effortless driving in traffic or on longer journeys.

The fold-flat ramp system allows the vehicle to quickly switch between a fully operational WAV and a practical everyday car with a flat load area, making it highly versatile.

## Who This Vehicle Is Ideal For

- Families needing a reliable WAV with automatic gearbox
- Users who want a smoother DSG driving experience
- Buyers needing a wheelchair vehicle with everyday practicality
- Carers looking for easy loading and simple operation
- Customers wanting a modern Euro 6 diesel WAV

## Other Vehicle Features

- Alloy wheels

25,630 miles - 9th April 2025 - Inchcape Volkswagen

34,728 miles - Multi-Point Inspection & Service - Michael Harraway Cars

Frequently Asked Questions (FAQ)

1. Is the DSG automatic gearbox suitable for wheelchair accessible vehicle use?

Yes, the DSG automatic gearbox is ideal for WAV use. It provides smooth, effortless driving with no clutch work, making it especially helpful for carers, frequent stop-start driving, and longer journeys where comfort and ease of use matter.

2. Can this WAV still be used like a normal car when not carrying a wheelchair passenger?

Yes. One of the key benefits of this Caddy Maxi is the fold-flat ramp system, which creates a level boot space when not in use. This means you can use it exactly like a standard family car for shopping, luggage, or general everyday driving.

3. Can this WAV be driven into ULEZ and Clean Air Zones such as Bristol or Bath?

Yes. This Volkswagen Caddy Maxi is Euro 6 compliant, meaning it meets the emissions standards for most Clean Air Zones in the UK. It can be driven into ULEZ areas such as London, as well as regional zones including Bristol and Bath, without incurring daily charges in standard conditions. This is particularly useful for hospital visits, city travel, and unrestricted access when you need it most.

4. Is the ramp easy to use?

Yes, the ramp is lightweight and designed for single-person operation, with the added assistance of an electric winch for loading wheelchairs or mobility scooters.

5. Will my wheelchair or scooter fit?

This WAV will suit most standard wheelchairs and many mobility scooters. The internal dimensions

provide good clearance, but it is always recommended to check measurements before purchase.
