

3) Dacia Jogger 1.0 TCe Extreme Wheelchair Accessible Vehicle

Content

If you're looking for a wheelchair accessible vehicle that feels more like a family car than a van, this stunning 2024 (73) Dacia Jogger 1.0 TCe Extreme could be exactly what you've been searching for. Finished in excellent condition throughout, this one owner, ex-Motability vehicle has covered just 6,189 miles from new and benefits from a high-quality Sirius wheelchair accessible conversion. Unlike many traditional van-based WAVs, the Jogger offers a lower seating position, making it easier for many people with limited mobility to get into the front seats while still providing space for five passengers plus a wheelchair user or small mobility scooter.

With the balance of the manufacturer's warranty until 28th February 2027, two Dacia services already completed and a generous level of specification, this is a practical, economical and modern wheelchair accessible vehicle that's ready to enjoy.

Practical Benefits

One of the biggest advantages of the Dacia Jogger is that it drives and feels much more like a family car than a traditional van-based wheelchair accessible vehicle.

Its lower seating position can make getting into the front seats easier for many people with reduced mobility, while the economical petrol engine is an excellent choice for drivers who cover lower annual mileages and prefer to avoid the complexity of modern diesel emission systems.

Compact enough to park with ease, yet spacious enough to carry five passengers and a wheelchair user, the Jogger offers a unique combination of practicality, comfort and everyday usability.

Service History

Maintained to an excellent standard with Dacia main dealer servicing.

26th February 2025 - 2,999 miles - Platinum Dacia

4th March 2026 - 5,137 miles - Platinum Dacia

Vehicle Condition

This vehicle is presented in excellent condition both inside and out and has clearly been well cared for from new. The interior is clean, fresh and smoke free, while the exterior is in superb condition.

The wheelchair conversion is equally well presented and everything operates exactly as it should.
