

Volkswagen Transporter T6.1 SE 2.0 TDI DSG Wheelchair Accessible

Content

This 2021 (21) Volkswagen Transporter T6.1 SE 2.0 TDI DSG makes an impressive wheelchair accessible vehicle, combining its smart appearance, spacious interior and impressive driving experience with a professionally designed Brook Miller wheelchair conversion.

Converted by Brook Miller, this Transporter provides comfortable accommodation for a wheelchair passenger alongside four conventional passenger seats. The large rear wheelchair area, lowered floor and bi-fold rear ramp make access straightforward, while the two individual front seats create a more open cabin and give the wheelchair passenger a particularly good view forward.

Another useful feature is the rear passenger compartment air conditioning, helping to keep the wheelchair area comfortable during warmer weather. Combined with the Transporter's spacious interior and excellent driving position, this makes it a particularly practical WAV for regular use.

Available to view in our showroom in St Georges, Weston-super-Mare, we proudly supply wheelchair accessible vehicles throughout Bristol, Somerset, Devon and the wider South West. We also work with a good number of customers across South Wales, many of whom find us an easy trip over the bridge.

About Michael Harraway Cars

I've been in the motor trade for over 30 years, and for more than a decade I've focused entirely on wheelchair accessible vehicles. Based in St Georges, Weston-super-Mare just five minutes from Junction 21 of the M5. I've sold over 500 WAVs to customers across Somerset, Bristol, Bath, Devon, South Wales and further afield.

I know these conversions inside out, how they're built, what tends to go wrong, and what actually matters when you're choosing one for a specific wheelchair or family situation. I personally look over and test drive every car before it goes on the forecourt.

If you've got any questions about whether a car will suit your needs, just get in touch, I'm happy to talk it through with you.
